Secure a responsible career opportunity to fully utilize my training and skills while making a significant contribution to the success of the company.

WORK EXPERIENCE

Associate Software Engineer
Synoriq Pvt. Ltd.

11/2021 - Present   *Jaipur*

Achievements/Tasks

- Added 3 modules on AU Small Finance Bank's Employee Portal adding various functionalities for the employees helping them automate their daily tasks and fixing bugs.
- Module to grab a pdf file from two servers each day, digitally adding a signature to them and creating a new pdf file, then to mail this file to respective mail id's.
- Module to allow employees to fill a form each day with required details then store it in a database, then check which employees have not submitted the form by EOD, then inform concerning authorities by mail the list of employees that are still pending through several escalations.
- Module to show a list and data of the various camps conducted by the bank, allowing employees to access and edit the data if they have the permission, else they can ask for permission through a click of a button and the concerning authorities can either approve or deny their request.
- Adding enhancements on FM Connect and FM Converge tools by Finmechanics, fixing bugs and adding more functionalities to both the tools as required by them.
